

REMARKS

Applicant respectfully requests that this amendment/response be considered by the Examiner and a notice of allowance be entered. Applicant's amendments are supported by the original application as filed and no new matter has been entered. Amendments to the specification relating to the "certification notice" are supported by original Figures 12 and 13.

Applicant amended the claims to clarify the structure which applicant believes distinguishes the invention over the cited references, to clarify the functions of the claimed invention, and to clarify the limitations within the claims drawn to such structure. However, amendments have not been made to narrow the claims of the original application but, rather simply, to clarify claims due to grammar that the Examiner found unclear.

If the Examiner feels that a telephone conference with the undersigned would be helpful to the allowance of this application, a telephone conference is respectfully requested.

Respectfully submitted,
JACKSON WALKER L.L.P.
